

Coring Tine

Fast, effective dethatching and soil preparation for topdressing and overseeding.

The AerWay® Coring Tine is a 4 inch long, 3/4 inch diameter, heavy walled tine. They are available on 4", 5" and 6" centers and they can be fitted on any AerWay frame.

AerWay® Coring Tine can be run at the same speed as your mowing equipment, making short work of dethatching and soil preparation for topdressing and overseeding.

Advanced Aeration Systems

*The AerWay® Coring Tine can be
used up to 4" deep.*

*There are 6 tines per row and each
hub operates independently for smooth
operation. Optimum penetration is assured
by ballasting the AerWay® frame.*

*The Coring Tine is a member of the AerWay® family of products. AerWay® manufactures a range of
tines under the names Finetine®, Sportstine® and Shattertine®, each designed for a specific use.
Contact AerWay® for information on the product specifically suited for your conditions.*
